Sketchbook Self-Reflection

Look through your entire sketchbook for this semester, placing assignments in order from start (SB #1 in January) to finish (SB #17 last Friday). **Write in well written complete sentences and give examples to support your answers.**

1. What is your first impression of your sketchbook as a whole? What would you think about the quality and effort if it wasn't yours?
2. Based on what you have, what have you done particularly well? Explain specifically why you think it is successful.
3. What have you improved during the course this semester? What evidence in your sketchbook proves that you have made this improvement?
4. What part of your sketchbook still needs the most improvement? Explain three specific things you plan to do to improve it, if you decided to do that.
5. If you had to create an art project based on (or inspired by) material from your sketchbook this semester, describe what you would make. What sketchbook material is this based on?
6. Now, take a photo and attach it to this email of your MOST SUCCESSFUL SKETCHBOOK DRAWING. Why do you feel this is the most successful drawing? What specific things can you attribute to your success?
